- Highlighting high frequency and legacy products

ABOUT THIS EVENT

XMA is looking forward to seeing you at IMS 2021 in Atlanta! In less than a month, you can find Marc, our President and CEO, and Del, our Sales Engineer, meeting and greeting customers, prospects, and friends at Booth 1228. Bring a friend or two to see our newest products in-person and play our featured game. We look forward to seeing you face to face again and taking a two-day break from Zoom! XMA is highlighting our high frequency products this year to support the 5G industry alongside our legacy products to support aerospace and defense. Our cryogenic and space qualified products are the cherry on top of our exciting display. We look forward to seeing you at Booth 1228!

PS. Can't make it? No worries, IMS is virtual as well. Check out our online booth the week of June 20th for an introduction to our new website and all the info you need on our fresh products.
